

# Professional Licensing

Your professional license or other credential is one of your most valuable assets. Facing a licensing or credentialing challenge can be confusing and stressful, and it can ultimately threaten your professional reputation and livelihood.

Our attorneys have decades of combined experience in navigating licensure and credentialing matters on behalf of professionals and organizations. Whether we are litigating on behalf of a physician before the Indiana Medical Licensing Board or helping a pharmacy client navigate a surprise visit from the U.S. Drug Enforcement Administration, we offer deep expertise and skilled advocacy to our clients.

## **Examples of recent professional licensing matters in which the Firm has handled include:**

- Represent professional license-holders in Attorney General investigations and disciplinary actions before the Indiana Pharmacy Board, Medical Licensing Board of Indiana, Indiana State Board of Nursing, and other professional boards
- Represent DEA registrants in audits, inspections, investigations, and enforcement actions
- Advise health care and veterinary care entities on expansion of regulated activities into Indiana
- Advise on regulatory requirements for specialized medical equipment, including automated dispensing machines and radiological equipment
- Counsel clients in navigating compulsory reporting/disclosure issues following license discipline

We encourage you to review our **Client Service Standards** demonstrating our commitment to excellence. Contact us to explore how our firm can partner with you to provide thoughtful, vigorous representation in your professional licensing matter.
